

		BC Liberals	NDP	Greens
Emissions	Greenhouse gas emissions	Reduce greenhouse gas emissions 80 per cent by 2050 (by 2007 standards).	Reduce greenhouse gas emissions 40 per cent by 2030, and 80 per cent by 2050 (by 2007 standards).	Reduce greenhouse gas emissions 33 per cent by 2020 and 80 per cent by 2050 (by 2007 standards).
	Carbon	Freeze carbon tax at \$30/tonne until 2021.	Increase carbon tax starting in 2020, rising to \$50/tonne by 2022 (the Federal minimum).	Increase carbon tax starting in 2018, rising to \$70/tonne by 2021. Will expand tax in 2020 to include forestry slash burning (\$36/tonne) and methane from fossil fuel development.
				Will expand rebates for low and middle-income families.
	Fugitive and vented emissions	Forty five per cent reduction in fugitive methane by 2025, according to a statement from the BC Liberal campaign office.	Forty per cent reduction for fugitive and vented methane in five years.	Expand carbon tax in 2018 to include fugitive and vented emissions (includes methane) from \$10/tonne in CO2 emissions, rising to \$50/tonne by 2021.
Funding			Invest \$29 million over four years to enhance scientific understanding of climate change in B.C., and to support forest carbon management initiatives to help reduce greenhouse gas emissions.
