

		BC Liberals	NDP	Greens
Energy projects	LNG	Twenty LNG projects on the table, no conditions around emissions targets. One in operation and one ready for construction.	LNG facilities must align with commitments to combat climate change, secure full partnerships with local First Nations, offer jobs for locals, and assure fair returns for B.C. The NDP has said in the past that it supported one of the approved LNG projects, Woodfibre LNG.	Opposed to LNG expansion.
	Pipelines	Approves of Kinder Morgan pipeline expansion.	Opposes Kinder Morgan pipeline expansion.	Opposes Kinder Morgan pipeline expansion.
	Site C	Approves of the Site C dam.	No mention in platform, but Horgan said he wants to put the Site C dam through a review by the B.C. Utilities Commission, which is also what a federal review panel said.	Opposes the Site C dam. Weaver called it a costly and wasteful subsidy for the LNG-export sector.
Subsidies		Increased subsidies that support cheap electricity for LNG and other oil and gas operations, as well as other special tax breaks.	Support reduced tax rate for LNG in 2014 and electrical subsidy for Woodfibre LNG project. Will review oil and gas subsidies, but propose increased subsidies for mining.	Opposes reduced LNG tax rate; opposes electrical subsidies to LNG.
